Human Life is Precious

Each of us is poor, needy and destitute. When we are born, we require the care of our parents to survive, and at very stage of life we remain in some way dependent on the help of others. We will always be conscious of our limitations, as "creatures" before other individuals and situations. A frank acknowledgement of this truth keeps us humble and spurs us to practice solidarity as an essential virtue in life. Such an acknowledgement leads us to act responsibly to promote a good that is both personal and communal.

Saint Teresa of Calcutta helps us understand that our only criterion of action must be selfless love for every human being, without distinction of language, culture, ethnicity or religion. Her example continues to guide us by opening up horizons of joy and hope for all those in need of understanding and tender love, and especially for those who suffer and those who are ill.

A spirit of generosity ought to inspire Catholic healthcare institutions, whether in the more developed or the poorer areas of our world, since they carry out their activity in the light of the Gospel. Catholic facilities are called to give an example of self-giving, generosity and solidarity in response to the mentality of profit at any price, of giving for the sake of getting, and of exploitation over concern for people.
